PROVIDING STATE-OF-THE-ART LIGHTING SOLUTIONS.

## Capability Statement

The Greenway Group has consistently and continuously provided quality high-efficiency LED lighting since 2011. Our professional team of energy efficiency managers and technicians collectively represent more than 13 years of experience. We specialize in successfully engineering, furnishing, and installing lighting solutions that reduce energy consumption and lighting utility costs by 30% - 60% annually.

### Core Competencies

- Key personnel include licensed master electricians and account managers with an expertise in local and federal energy rebate programs.
- Conduct comprehensive audits and analyses of all interior and exterior lighting technologies.
- Develop in depth and detailed plans for replacement of existing technology with LED lighting.
- Perform installation of materials, maintenance, repairs, and tests for energy efficiency.
- All products are minimally 98% recyclable, eco-friendly, and built with reusable materials.

### Performance History

- Richland County School District One
- Medical University of South Carolina
- BlueCross BlueShield of SC
- University of South Carolina
- City of Columbia
- Word of GOD, International

### Differentiators

- Our lights carry a 5 - 10 year full product warranty.
- Service and maintenance is warranted for 2 years.
- Performance checks are conducted bi-annually during the life of the 2-year service warranty.

### Company Data

Committed to customer satisfaction, The Greenway Group has provided reliable services to businesses for more than six (7) years. In addition to performing audits and providing recommendations for replacement lighting, we have also marketed and retrofitted LED lighting technologies to businesses such as machine shops, warehouses, garages, gymnasiums, churches, city municipalities, and schools. Our clients have reported a utility cost savings of between 48% -55% annually.
